# The Official Graduation Collaboration to Reimagine the University Ring

**A graduation ring captures the joy of one of life's most meaningful moments and holds the memory close for all time.**

Individually crafted to reflect your time at university. Each ring is designed to be as personal as the time you spent studying, blending individual accomplishment with the history of the institution.

The collections are official and have been developed in close collaboration with the universities we partner with to ensure that every item ordered raises money for the university.

All rings are custom-made to ensure the perfect fit for the wearer and are only made from precious metals as they are designed to be modern heirlooms that last a lifetime or more. It takes us about eight to twelve weeks to finish a ring as the process is done entirely by hand.

## How to Personalise

### 1. **Choose** a ring design

"There are five designs in silver and gold to choose from, plus we introduced our first titanium collection this year."

### 2. **Pick** your finger and finger size

"The rings can be worn on any finger, but the most popular is the little finger or the ring finger of the right hand."

### 4. **Finalise** your inside engraving

"Each ring includes a complimentary inside engraving."

### 3. **Personalise** and make the design your own

"Depending on the design, you can add your year of graduation, your degree initials and even a gemstone."

# 1 / Band ring

A timeless form: sculpted, polished and imbued with meaning.

## Slim, 1.5mm

Sterling Silver £65 · 9ct Gold £225 · 14ct Gold £310 · 18ct Gold £420

(gold can be white, yellow or rose)

## Classic, 4mm

(gold can be white, yellow or rose)

## Create your own band ring in 3 steps:

### (i) Engraving

The outside of the ring can be engraved with the university's name and your year of gradation and degree initials, for instance UNIVERSITY NAME 2018 MA. A complimentary inside engraving is also included - which can be used for a date, a name or a short message.

### (ii) Texture

For the outside texture of this ring, you can choose between Max's Mirror and Baltimore Brush. The former is a classic mirror finish that creates a bright, calm impression; the latter, a hand applied brush that forges a unique character.

### (iii) Gemstones

A single or twin stones can be set on this ring, creating a spot of light at the centre of the band. The stones chosen to pair with the band are all natural gemstones with a custom cut.

There is an additional charge of £15 for setting a gemstone, £30 for two.

## 2 / Seal ring

A scaled-down design without sacrifice to sophistication.

*This design is our "Staff Pick", the favourite of our design studio. The Seal can be worn on any finger, but we favour the little one. It is an unpretentious design, with a versatile appearance that fits any occasion.*

### Small Sebald Seal, 11.5mm

## How to Choose a Metal

Our graduation rings are heirloom pieces you will keep for generations. To ensure longevity they are made in precious metals. Sterling Silver is a distinctive and enduring precious metal with a long heritage. Gold is the quintessential metal that has been historically favoured when choosing a metal to mark important celebrations.

Pure gold is too soft for everyday wear so it is alloyed with a mixture of metals to give it strength and durability. The carat (ct) is the measure of gold content. We craft our jewellery using 18ct (75% gold), 14ct (58.5% gold) and 9ct (37.5% gold). 18ct gold, as a purer gold, will have a fuller, richer colour and is the most durable.

## A Selection of Bespoke Options

The Bespoke service offers customers the freedom to create an even more unique ring, specific to their personal style. We explored our archive of original requests and have put together this collection of Bespoke options to choose from.
